

Cloudbant DB

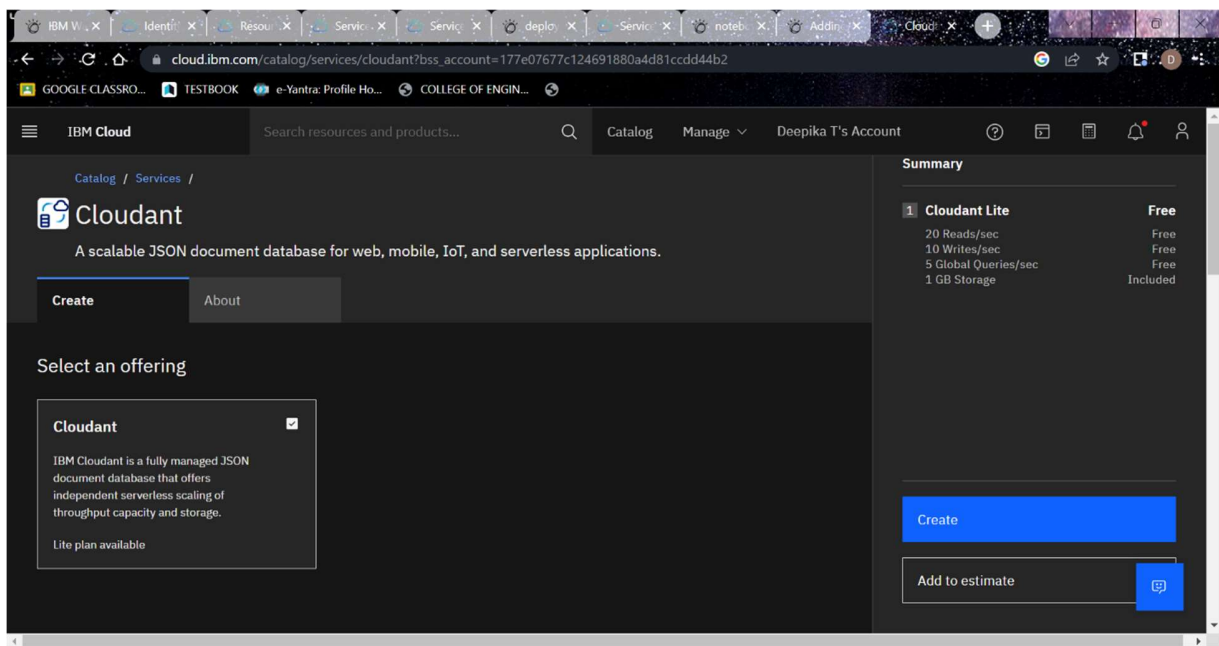

Team ID: PNT2022TMID35437

1. Register & Login IBM Cloud

2. Create Service Instance:

Step 1:

Step 2:

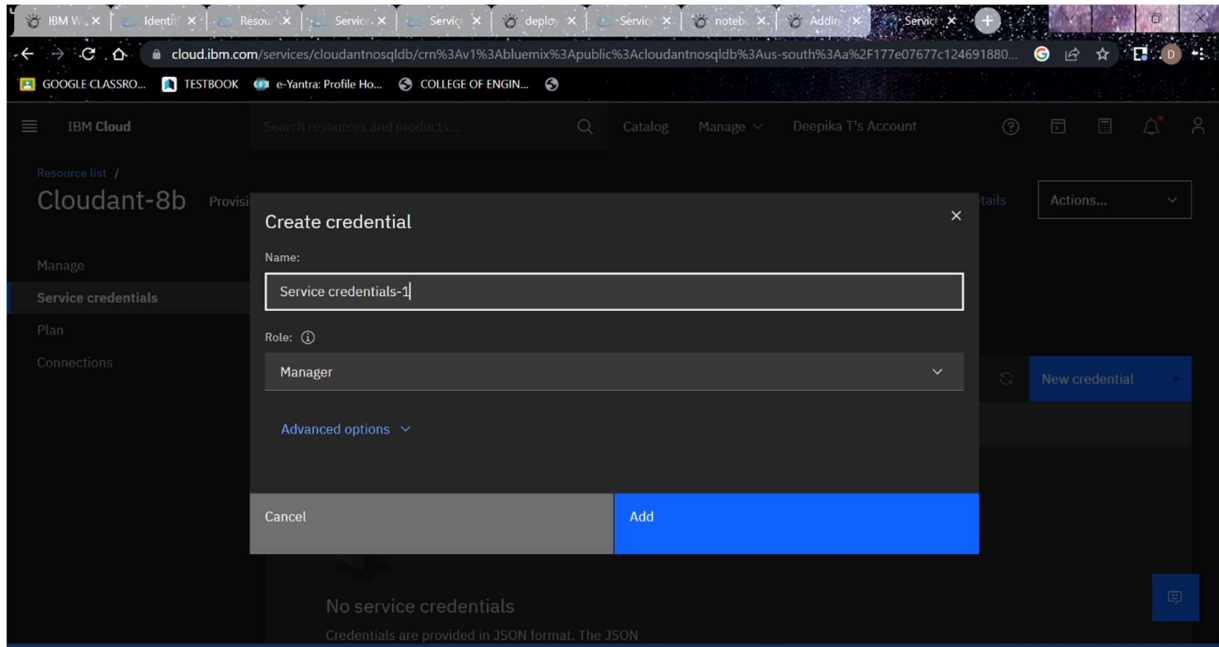

The screenshot shows the IBM Cloud console interface for creating a new Cloudant instance. The browser address bar displays the URL: `cloud.ibm.com/catalog/services/cloudant?bss_account=177e07677c124691880a4d81ccdd44b2`. The page has a dark theme and includes a top navigation bar with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and 'Deepika T's Account'. The main content area is titled 'Select an environment' and features two tabs: 'Multitenant' (selected) and 'Dedicated'. Below the tabs, a message states: 'Your instance will be running securely on environments with shared resources.' Under 'Available regions', a dropdown menu shows 'Dallas'. The 'Configure Cloudant instance' section includes an 'Instance name' field with the value 'Cloudant-8b' and a 'Resource group' dropdown set to 'Default'. A 'Tags' field contains the example text 'env:dev, version-1'. On the right side, a 'Summary' panel lists the 'Cloudant Lite' plan, which is 'Free' and includes '20 Reads/sec', '10 Writes/sec', '5 Global Queries/sec', and '1 GB Storage'. At the bottom right, there are two buttons: 'Create' (in blue) and 'Add to estimate' (with a plus icon).

Create Service Credentials:

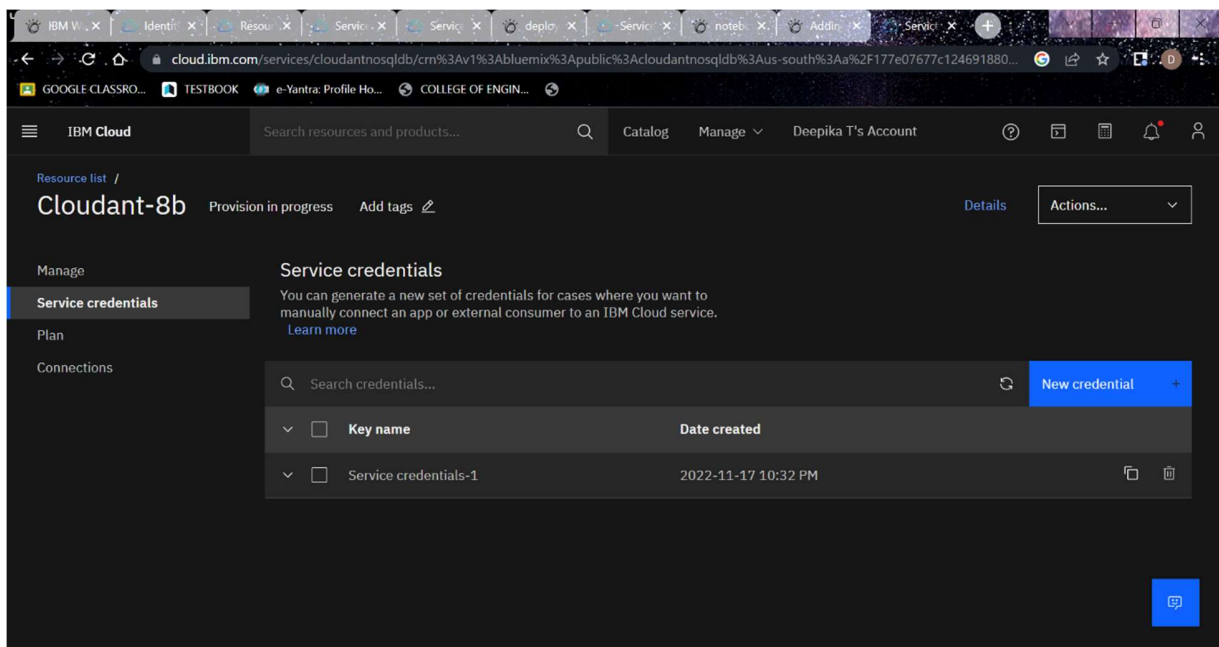

Step 1:

The screenshot shows the IBM Cloud console interface for the 'Service credentials' page of the 'Cloudant-8b' instance. The browser address bar displays a long URL: `cloud.ibm.com/services/cloudantnosqldb/crm%3Av1%3Abluemix%3Apublic%3Acloudantnosqldb%3Aus-south%3Aa%2F177e07677c124691880...`. The page has a dark theme and includes a top navigation bar with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and 'Deepika T's Account'. The main content area is titled 'Resource list / Cloudant-8b' and shows the instance is 'Provision in progress'. Below this, there is a 'Manage' section with a 'Service credentials' tab selected. The 'Service credentials' section includes a message: 'You can generate a new set of credentials for cases where you want to manually connect an app or external consumer to an IBM Cloud service.' and a 'Learn more' link. Below this, there is a 'New credential' button (in blue) and a table with columns 'Key name' and 'Date created'. The table is currently empty, and a message at the bottom states: 'No service credentials. Credentials are provided in JSON format. The JSON'.

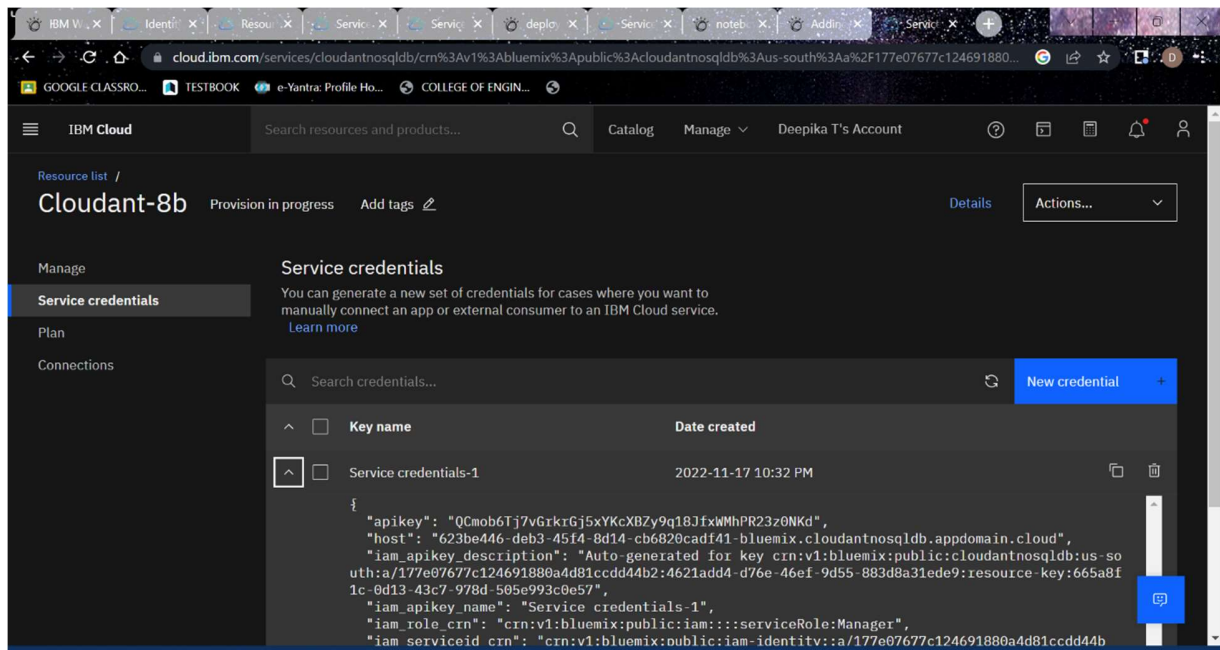

Step 2:

Step 3:

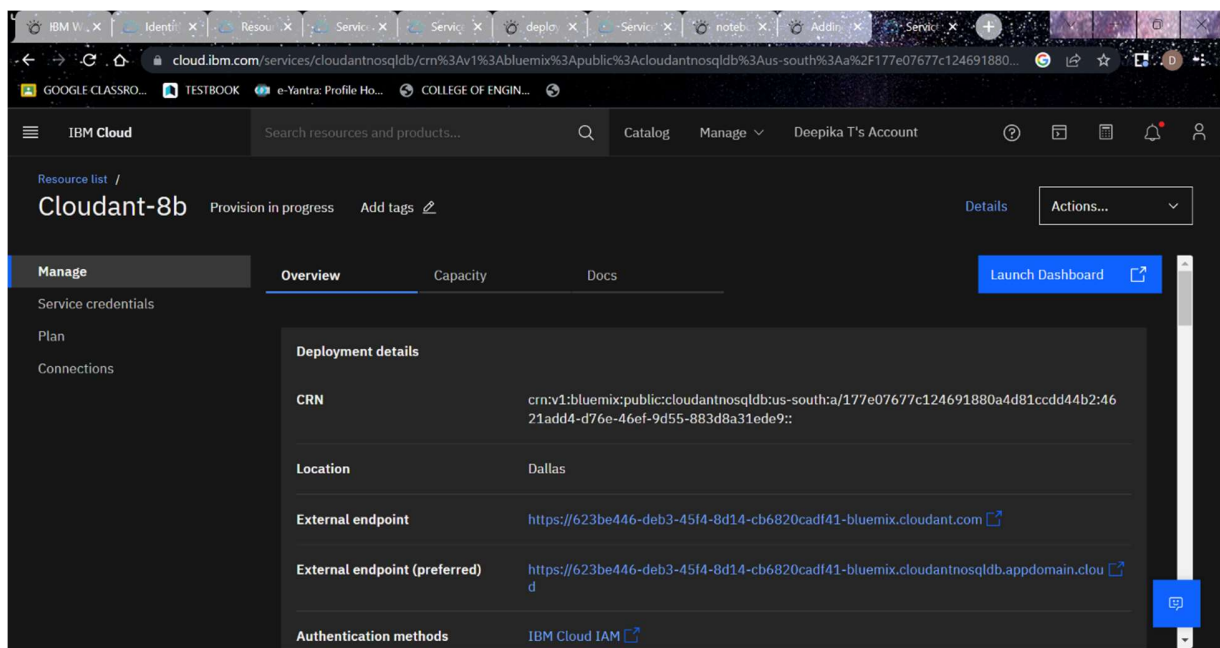

Step 4:

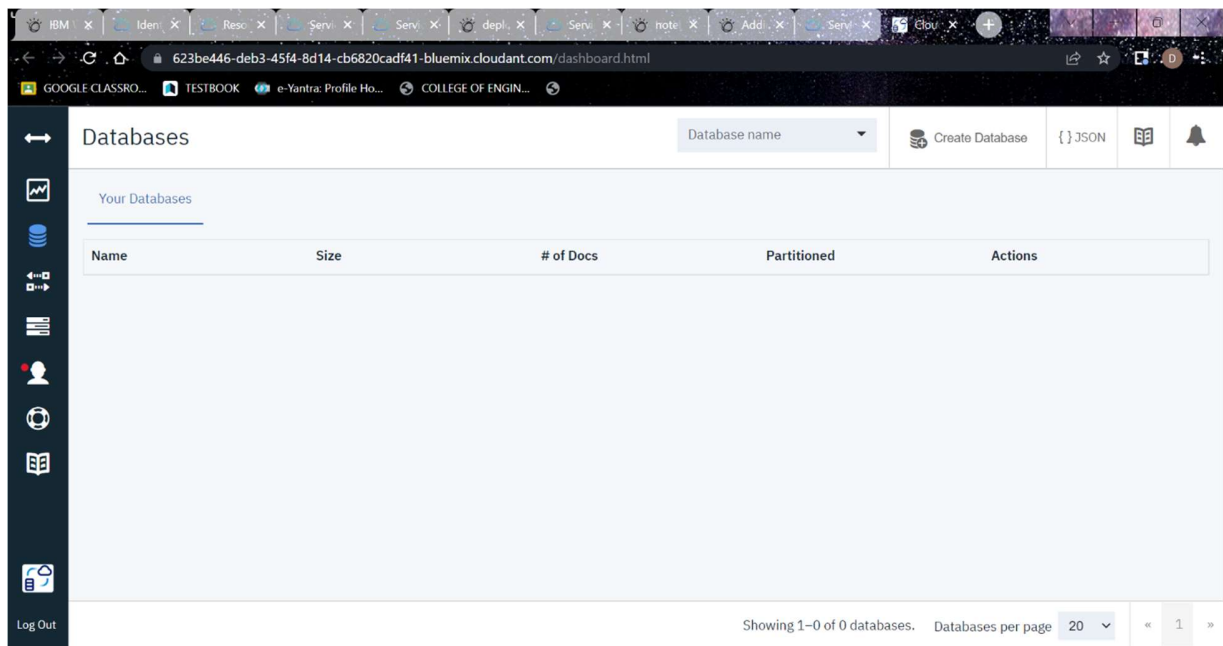

Launch Cloudant DB:

Step 1:

Step 2:

Create Database:
